Honeywell

**Solutions to Empower
Productivity**

Honeywell

From shop floor to product delivery, from material management to quality control, Honeywell Scanning & Mobility provides enterprises access to real-time information and automates operations. Constructed to withstand the rigors of daily use in challenging environments, our solutions allow you to control costs, improve efficiency and accuracy, and enhance your overall competitiveness. **Honeywell delivers accuracy and reliability for all of your manufacturing needs**

Shop Floor Management

Whether you require hands-free data collection, access to real-time information, or need to reduce your processing time, our solutions enable you to create the most efficient manufacturing operation. Purpose-built for your rugged work environment, we deliver flexible data capture capabilities and maximum reliability – ensuring years of uninterrupted, trouble-free operation

Warehouse Management

With Honeywell solutions, gain real-time visibility to inventory and accurate traceability at every step. Our range of mobile computers and handheld scanners help you ensure maximum connectivity, faster response times, and a lower operation cost. Our Shift-PLUS™ Power Management technology will allow you to operate for more than a full work shift without time-wasting battery changes.

Quality Control

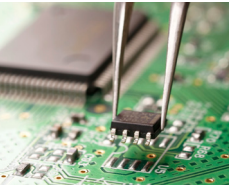

Equip your workforce with the latest in handheld scanning and mobile technology to ensure quality control across your full operation. With an automated process, reduce the chances of error and oversight

Device Management

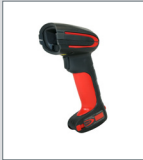

With Honeywell's Remote MasterMind, customers can easily track their assets, update device configurations and software, and provide remote diagnostics, troubleshooting, and repair to devices in the field.

Service Made Simple

With Service Made Simple, Honeywell's integrated service plan, you will have reliable support for your people, processes, and technology. This one plan provides you with access to technical support, software releases, and device repair to help you maximize uptime and drive greater efficiency through your business processes

BARCODE SCANNERS

 Voyager® 1250g • Gun-shape laser scanning • Longer scan range up to 17 inches for 13mil code • Automatic interface configuration • high density version 3 mil reading available (1250ghd)	 Hyperion 1300g • Gun-shape linear imaging scan • 3 mil bar code reading • Multiple interface on board • Better durability with no spinning parts
 Xenon™ 1900&1902 • 2D area imaging scan • Optimized scanning performance with new decoding architecture & customized sensor design • 1900: corded; 1902: Bluetooth cordless	 Granit™ 1910i/1911i • Industrial-grade durability with IP65 rated • 50 drops to concrete from 2m even at -30°C • 1910i: corded; 1911i: Bluetooth cordless
 Vuquest® 3310 • Compact form factor design • Aggressive pass-through 2D scanning • Intelligent multiple interface design • high density version 3 mil reading available (3310ghd)	 Genesis™ 7580 • 2D area imaging scan • Superior motion tolerance performance • TotalFreedom plug-in function

MOBILE COMPUTERS

 Dolphin® 6500 • Light weight & comfortable single-handed use • Laser or imager scan engine • Shift-PLUS battery life for 10+ hours of use • 802.11b/g or Bluetooth wireless communication	 Tecton™ • Industrial portable data terminal • 32 or 55 key backlit keypads • IP65 rated to withstand 1.8m drops to concrete • Cold-storage version available to use in -30°C temperature
 MX8 • Light Industrial portable data terminal • Available in Windows Mobile 6.1or CE 5.0 • 1D laser or 2D imager scan engines • Summit 802.11a/b/g wireless communication	 MX9 • Industrial portable data terminal • PXA320 process with Windows CE 5.0 • WWAN radio with built-in GPS • 802.11a/b/g WLAN & Bluetooth wireless
 Dolphin® 99EX • Durable industrial PDT • Aggressive 2D code scanning with image capture • Reliable wireless connections with software-definable radio • Dolphin 99GX available with integrated pistol grip	 Thor™ VM1 • Vehicle mount computer • Filed replaceable front panel • Quick mount smart dock • Ignition control
 Thor™ VM2 • New-generation vehicle mount computer • Filed replaceable front panel & quick mount smart dock • 9.7 inch XGA display • Win CE 6.0 & Embedded 2009 OS	 Marathon • Field computer • Multiple data input: touch screen, key pad, 2D imager, camera etc • Laptop-grade computing, outdoor display • 802.11a/b/g/n, GPS, multiple docking options
