Cross-Channel Selling

ScanPal® 5100

- Ultra-lightweight mobile computer
- Linear or area imaging scan engine
- Batch data collection or 802.11b/g communication

Dolphin® 6100

- Light industrial In-premise applications
- Laser or imager scan engine
- 802.11b/g or Bluetooth wireless communication
- Long lasting battery for 8-hour shift

Dolphin® 7800

- Enterprise Digital Assistant
- Powerful processor and network connection
- Fast and reliable wireless connection
- Superior 3.5" VGA display

Warehouse/Backroom

Dolphin® 6500

- Light weight & comfortable single-handed use
- Laser or imager scan engine
- Shift-PLUS battery life for 10+ hours of use
- 802.11b/g or Bluetooth wireless communication

Dolphin® 99EX

- Durable industrial PDT
- Aggressive 2D code scanning with image capture
- Reliable wireless connections with software-definable radio
- Dolphin 99GX available with integrated pistol grip

Tecton™

- Industrial portable data terminal
- 32 or 55 key backlit keypads
- IP65 rated to withstand 1.8m drops to concrete
- Cold-storage version available to use in -30°C temperature

Thor™ VM1

- Vehicle mount computer
- Filed replaceable front panel
- Quick mount smart dock
- Ignition control

Thor™ VM2

- New-generation vehicle mount computer
- Filed replaceable front panel & quick mount smart dock
- 9.7 inch XGA display
- Win CE 6.0 & Embedded 2009 OS

Solutions to Empower
Productivity

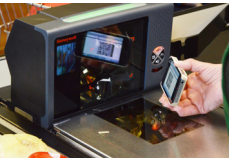

Retail Application At A Glance

Increase store productivity—from the front end to the back end—with Honeywell’s leading retail solutions. From hand-held to hands-free to bioptic scanners, Honeywell helps retailers optimize checkout productivity, leading to increased customer satisfaction and profitability.

For in-store and back-end applications, Honeywell mobile computers are the smart choice. With wireless connectivity that enables real-time access to critical information such as pricing and inventory, our Dolphin mobile computers help retailers improve the efficiency of their supply chain, maximize their customers’ basket sizes, reduce stock-outs and increase margin. ***Choose Honeywell for your retail data capture needs.***

Point-of-Sale

Either for the traditional checkout scan or the new Mobile POS, Honeywell’s POS solutions offer you ways to easily reduce delays and enhance shopping experiences, making your customers more likely to return and buy more.

Mobile Marketing

From electronic loyalty card to mobile coupons to e-wallet, Honeywell offers a comprehensive area imaging solutions to help retailers capture product data and customer behavior to align their offers to meet customer demands.

In-Store Management

Thanks to Honeywell mobile solutions, store associates are now equipped with the productivity tools needed to interact and engage with shoppers and offer a guided selling service, including information such as in-store, pricing and tailored promotions.

Cross-Channel Selling

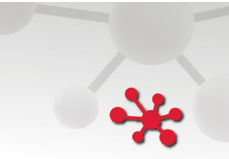

Integrated in real time with multiple-channel product and customer data, Honeywell’s solutions allow retailers to improve the efficiency of their supply chain down to each SKU level, maximize their customers’ basket sizes, reduce stock-outs from online to offline.

Warehouse/Backroom

Use Honeywell data collection and communication solutions to automate information gathering, gain greater control over your inventory, and multiply your turn-and-earn.

Device Management

With Honeywell’s Remote MasterMind, customers can easily track their assets, update device configurations and software, and provide remote diagnostics, troubleshooting, and repair to devices in the field.

Retail Application At A Glance

Point of Sale

Voyager® 1200g & 1202g

- Linear laser scanning
- Superior performance in poor quality codes
- Automatic stand detection & configuration
- 1200g: corded; 1202g: Bluetooth cordless

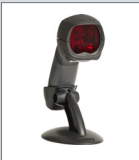

Voyager® 1250g

- Gun-shape laser scanning
- Longer scan range up to 17 inches for 13mil code
- Automatic interface configuration
- Multiple interface on board

Hyperion 1300g

- Gun-shape linear imaging scan
- Multiple interface on board
- Better durability with no spinning parts

Fusion® 3780

- Primary omni-directional laser scanner
- Secondary single-line scan pattern
- Both hand-held and hands-free operation
- Optional EAS

Orbit® 7120

- Omni-directional presentation scanner
- Customized depth-of-field for tight scanning
- Contour shape design easy for pick up scanning

Solaris™ 7820

- Omni--directional presentation scanner
- Aggressive scanning on high-density bar codes
- Multiple interface on board
- Diagnostic indicator easy for trouble-shooting

Stratos® 2400

- 5-sides, 360 degree scanning
- Aggressive pass-through scanning
- Field upgradable hardware modules
- Integrated scale optional

Stratos® 2700

- Laser and imaging hybrid scanning platform
- Aggressive pass-through scanning
- Bottom of basket monitoring system
- Field upgradable hardware modules

Mobile Marketing

Voyager®1400g

- Area imaging scanner
- Standard in 1D scanning, 2D upgradable in field
- Aggressive in mobile 2D codes scanning
- Automatic stand detection

Xenon™ 1900 & 1902

- 2D area imaging scanner
- Optimized scanning performance with new decoding architecture & customized sensor design
- 1900: corded; 1902: Bluetooth cordless

Genesis™ 7580

- Presentation 2D imager
- Optimized mobile 2D codes scanning
- Multiple interface on board
- Better durability with no spinning parts

Captuvo™ SL22

- Professional 2D scanning accessory for iPod Touch
- Provide durable protection for iPod Touch devices
- Optional encrypted magnetic stripe card reading

In-Store Management

Captuvo™ SL22

- Professional 2D scanning accessory for iPod Touch
- Provide durable protection for iPod Touch devices
- Optional encrypted magnetic stripe card reading
